Next Practice

- There is no “perfect program”—you should just get started and optimize it within the process.
- Greater engagement through children’s participation.
- across-sport programs are still very underrepresented—but they certainly have significant appeal (motto: movement, play, and sports).
- School administrators seem to have the greatest importance.
- More qualified staff (minimum-requirements are needed) – no standard practice, as it is in other settings (e.g., after-school care centers, daycare centers)
- Gatekeeper: Local contacts and coordination-staff
